EDUCATION

J. C. Bose University of Science and Technology, Faridabad Oct 2022 – Present
Bachelor of Technology in Computer Science Engineering

Government Polytechnic Barauni, Begusarai Aug 2018 – Dec 2021
Diploma In Computer Science & Engineering (80.78%)

M.R.J.D College Bishnupur, Begusarai June 2016 – July 2018
10th Class (77%)

WORK EXPERIENCE

Frontend Web Developer | Cypherash Enterprises Pvt. Ltd. March 2024 – May 2024
Internship | Remote

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Implemented dynamic components with React.js to enhance user interaction.
- Integrated RESTful APIs for real-time investment data.
- Collaborated with UI/UX designers to improve user experience.
- Optimized web application performance and resolved bugs.

PROJECT

E-commerce Website | [Link](#)

I developed an e-commerce site for spectacles using React.js, enabling frame selection and color customization. The project enhanced React.js skills, emphasizing state management and dynamic component rendering. Implemented features include responsive UI, interactive product displays, and real-time color changes using hooks and context APIs, improving front-end development, UX design, API integration, and performance optimization skills.

Social Media with video call and personal chat | [Link](#)

I created a social media platform with video call and chat features using React.js. The project focused on user-friendly connectivity, real-time chat with WebSockets, and video calls with WebRTC. It enhanced my React.js skills, real-time data handling, and multimedia streaming. I gained experience in user authentication, state management, and optimizing performance and security for a better user experience.

Payment Gateway | [Link](#)

Developed a platform with a payment gateway for voucher exchange using React.js. Enhanced skills in React.js, state management, and API integration. Emphasized security, user trust, and error handling in financial applications.
